Work Experience

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and contact information.
- Implemented SEO best practices including meta tags, structured content, and performance optimization to improve search engine visibility.

RAM Paging

- Paging is a memory management technique where physical memory (RAM) is divided into fixed-size blocks called frames, and logical memory is divided into pages.
- It helps in efficient utilization of memory by eliminating external fragmentation.
